

PENNSYLVANIA COMPENSATION RATING BUREAU

Claim Frequencies

The attached exhibits examine historical Workers Compensation claim frequencies in Pennsylvania.

Page 1 shows counts of claims and wages as compiled by the Pennsylvania Department of Labor and Industry along with resulting claim frequencies per \$1 million of payroll. Claim counts are available through the twelve months ending June 30, 2009.

Indicated average annual changes in claim frequency are also shown (column (8)) based on an exponential regression for frequencies during the calendar periods shown in column (7). The figures in column (6) indicate that there have been four distinct periods since 1991 with regard to observed average annual changes in claim frequency. The period 1991-1994 showed an average change of -8.0% followed by three years (1995-1997) at -16.6%. Annual changes since 1997 have slowed somewhat with an estimate average change for 1998 - 2000 of -8.3%. With the exception of 2004, Labor & Industry claim counts showed increases from 2001 through 2006 due to changes in the types of claims certain carriers were reporting. Some improvements in claim frequency are shown in 2007 and later years. The result is that patterns of claim reporting in recent years must be reviewed with great caution.

The second portion of page 1 presents claim frequencies on a fiscal year basis.

The second page shows a graph of the frequencies appearing in column (5) of page 1.

Claim frequencies per \$1 million of expected losses are shown on page 3 based on statistics gathered by the PCRB. For informational purposes, claim frequencies are also shown at constant (1987) wage levels. The data excludes the experience of deductible business. The pattern of changes in claim frequency on page 3 are similar to, although generally lower than, the Pennsylvania Department of Labor and Industry data shown on page 1 until 2001.

Staff is proposing an annual change in claim frequency of -5.9%. This is based on a claim frequency trend line of the form  $y=a*b^x$  using the most recent seven points.

The fourth page shows a graph of the frequencies appearing in column (5) of page 3.

The fifth and sixth pages are comparable to pages 3 and 4 but include the experience of deductible policies.

The seventh page shows a graph comparing claim frequencies presented on pages 2, 4 and 6, all indexed to a common value of 1.0 at January 1, 1988.

Page 8 presents the Unit Statistical Plan claim frequencies of page 3 by industry group and page 9 shows a graph of those industry group claim frequencies.
